

# TAKING FLIGHT

## NEXT LEVEL

### Who We Are

Taking Flight: Next Level is a multi-organization partnership between the University of Kentucky's Ecological Research and Education Center (EREC); Red Oaks Forest School; Kids Makelt Institute; and the Rafiki Center.

### What We Do

This program will focus on blending original scientific research on native bird species with immersive, student-led study in science, technology, math, and art.

All backgrounds, cultures, and languages of origin are welcome.

### Our Why

As educators, parents, and policymakers, it is important we recognize that the work we do and the good we hope to spread is mutually tied to the needs of all communities. Any community program that engages one community must engage all communities, including communities of color, immigrant and migrant populations, and diverse cultural backgrounds. This is how we change the sciences for the better.

**JOIN US!** Classes will be held September 10–December 10 for a total of 12 Saturdays, from 9 a.m. to 12 p.m. Attendance is open to students 14 years of age and older.
