

Honey Bee Education Day

for

Extension Agents, Bee Club Leaders, Pest Management Professionals
Open to All Interested Community Members Too!

Using the Train-the-Trainer model, the State Apiarist will provide educational training on current beekeeping trends in Kentucky. Information on state survey data, management of pesticide kills, and management of invasive species threats will be covered.

Presentation Materials and Specimens will be available to Agents
(and club leaders as available)

With
KDA State Apiarist
Dr. Amanda Skidmore
