Femmes & Sciences Association

Promoting women scientists

Promoting scientific and technical careers

President : Françoise Conan

- Encourage young women to take up scientific and technical careers.
- Strengthen the position of women in scientific and technical careers, in both the public and private sectors.
- To promote and enhance the perception of science among women and the visibility of women in science.

Mentoring - Promotion 2022

What is mentoring?

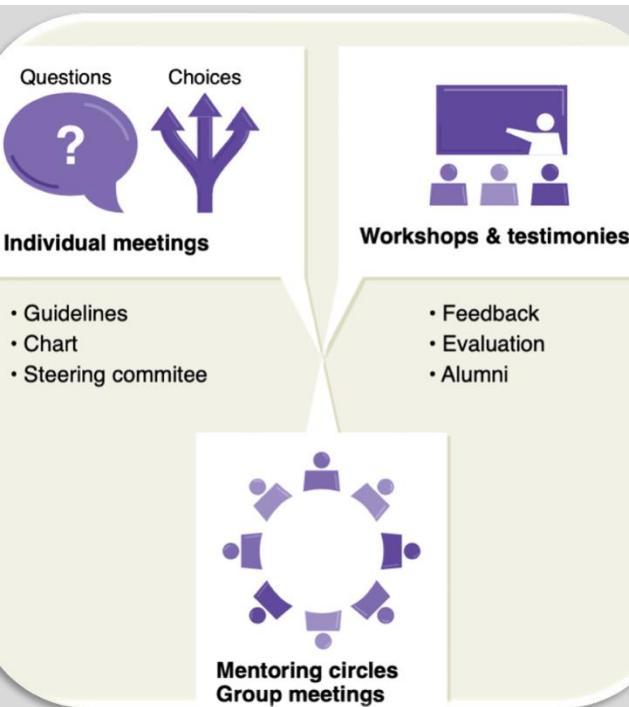

Mentoring is a **voluntary** and **confidential** interpersonal relationship between : an experienced person, the **mentor**, and a less experienced person, the **mentee**.

Mentoring is **associated with career progression and professional development**

The mentoring framework

- Volunteering
- Neutrality
- Steering committee
- ToolboxBénévolat

Mentoring structure and tools

Individual exchanges M/M

Mentoring circles

Self-confidence
Self-esteem
Motivation
Self-affirmation
Imposter syndrome

Testimonies

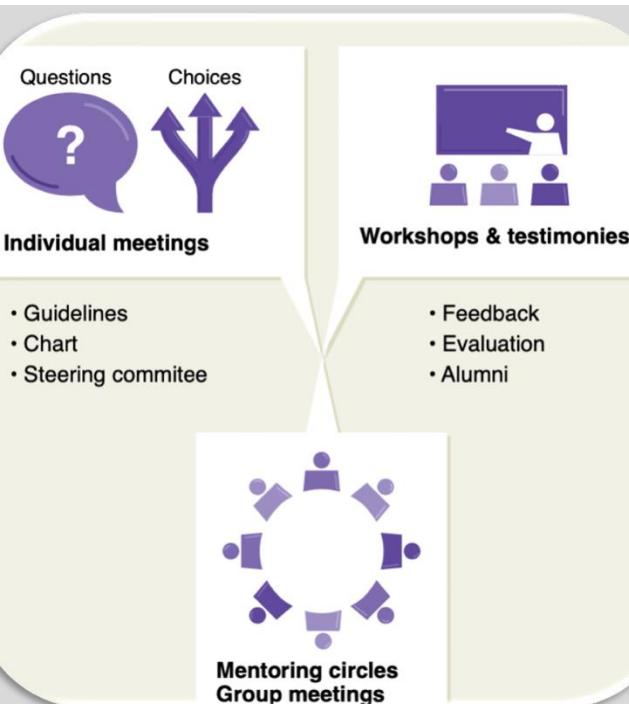

Female role models

Workshops

Build the M/M relationship

about the same
thing?**

02

The Mentor/Mentee relationship

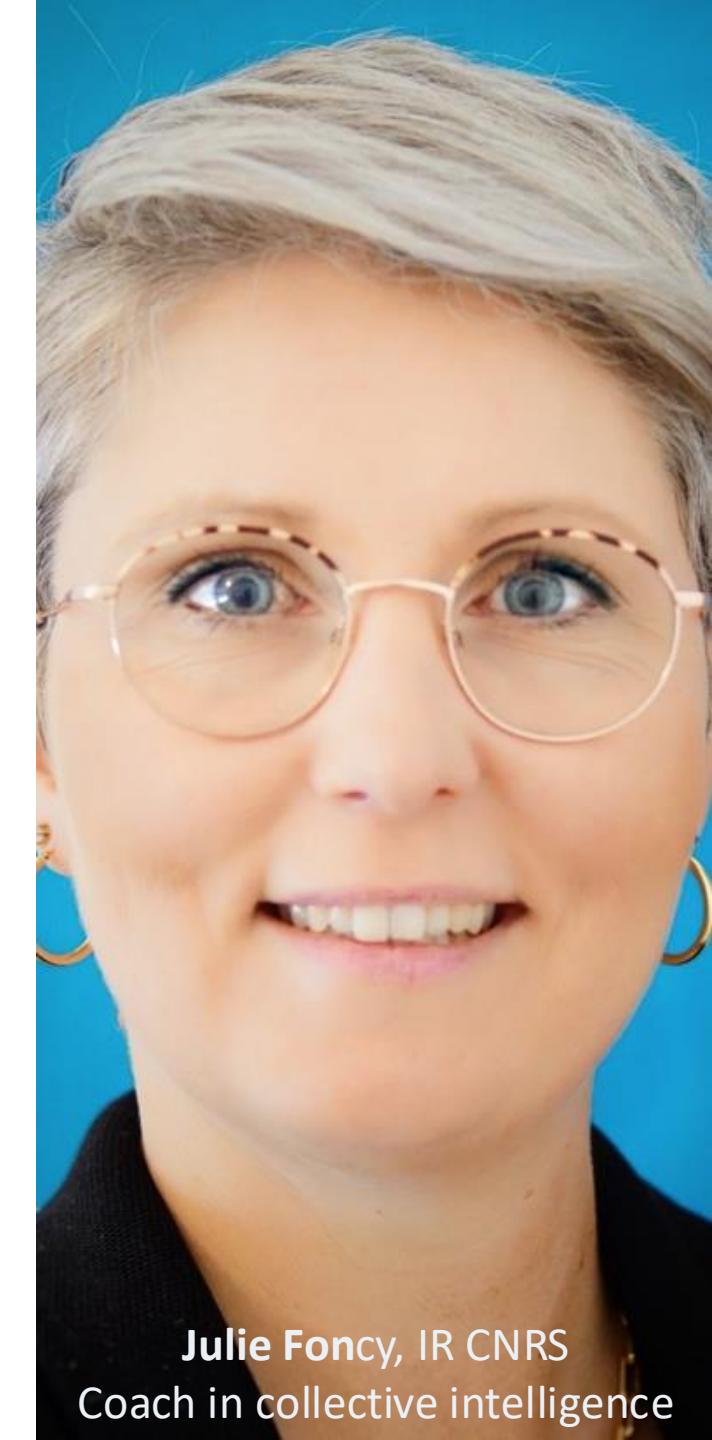

The Mentor/Mentee relationship

Establishing trust for communication

- Putting representations into perspective
- Listen to
- Understanding
- Communicate

Establish a long-term relationship

Julie Batut

Julie Foncy, IR CNRS
Coach in collective intelligence

03

The collective workshop & tools

Determine the aims of the workshop in advance

- Working on the M/M relationship
- Sharing a common frame of reference
- Creating cohesion between members

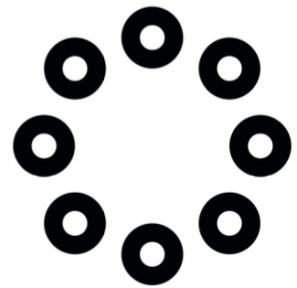

Process

- Collective Intelligence
- Workshops & theoretical contributions

Frame

- Group and pair work
- One facilitator
- One day

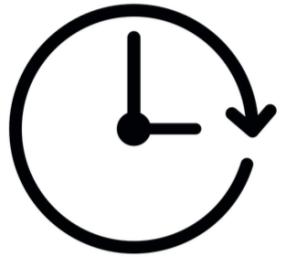

The circle

Take position in a circle to see and hear everyone.

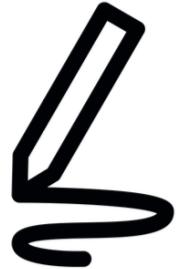

Speak with intention

Use "I" and forget "We". Use "positive" sentences by expressing what you need rather than what you lack.

Speak when it is your turn

Respect the duration of speech of everyone, be attentive to what everybody is saying. We can take turns clockwise

Key words

Write down key words that everyone can read, capital letters can help.

RULES

The power of silence

Silence time is sometimes necessary to give a chance to people to think of new ideas.

The facilitator

Respect the format and duration of each workshop the facilitator will present.

No moral judgements

No debates or criticism about anyone's idea. Each idea should be an addition to the pool of ideas rather than a replacement. Any idea can help in building the collective project.

Trust

Have faith in the ideas of others and in your own ideas. Make sure to keep a friendly atmosphere during this collective reflexion time.

M/M WORKSHOP

Session 1: INTRODUCTION

Getting to know each other

INCLUSION

Putting representat ions into perspective

WORKSHOP 2

Identifying needs

WORKSHOP 1

Drawing up a charter

WORKSHOP 3

Frame of reference

THEORY

Feedback

Everyone can express
their views on what they
have experienced

GETTING TO KNOW EACH OTHER

Inclusion – Icebreaker

- What state do I arrive in? How do I feel?
- What do I expect from this workshop?
- What do I need to feel good?
- What contribution will I make to the group?
- What qualities do I recognise in myself that will help?

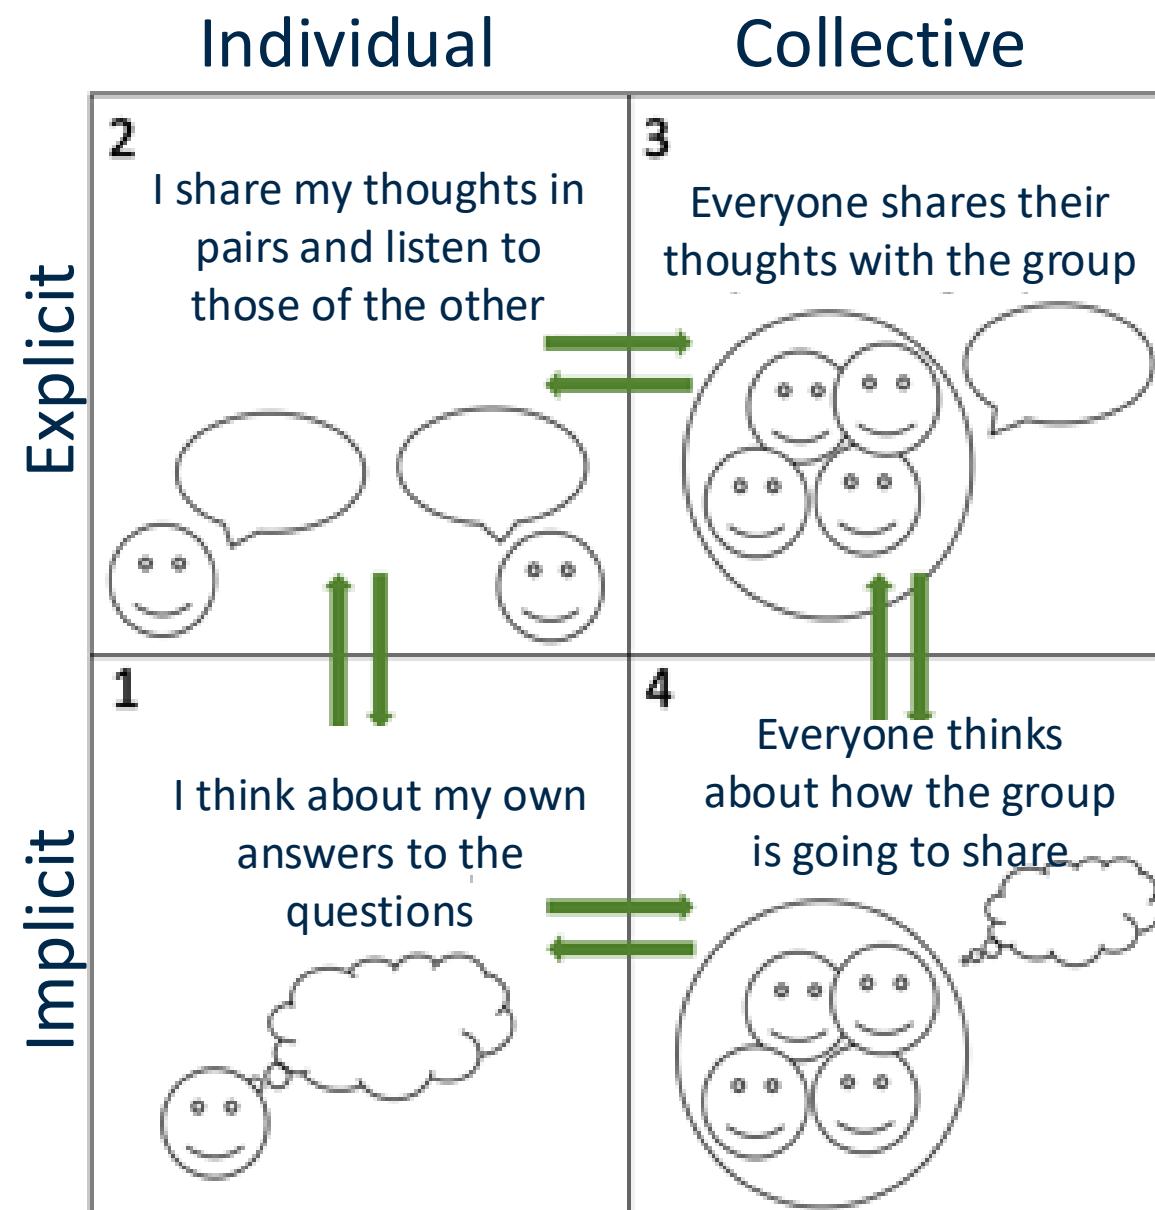

GETTING TO KNOW EACH OTHER

Inclusion – Icebreaker

- What state do I arrive in? How do I feel?
- What do I expect from this workshop?
- What do I need to feel good?
- What contribution will I make to the group?
- What qualities do I recognise in myself that will help?

Making the implicit explicit

IDENTIFYING NEEDS

Workshop 1

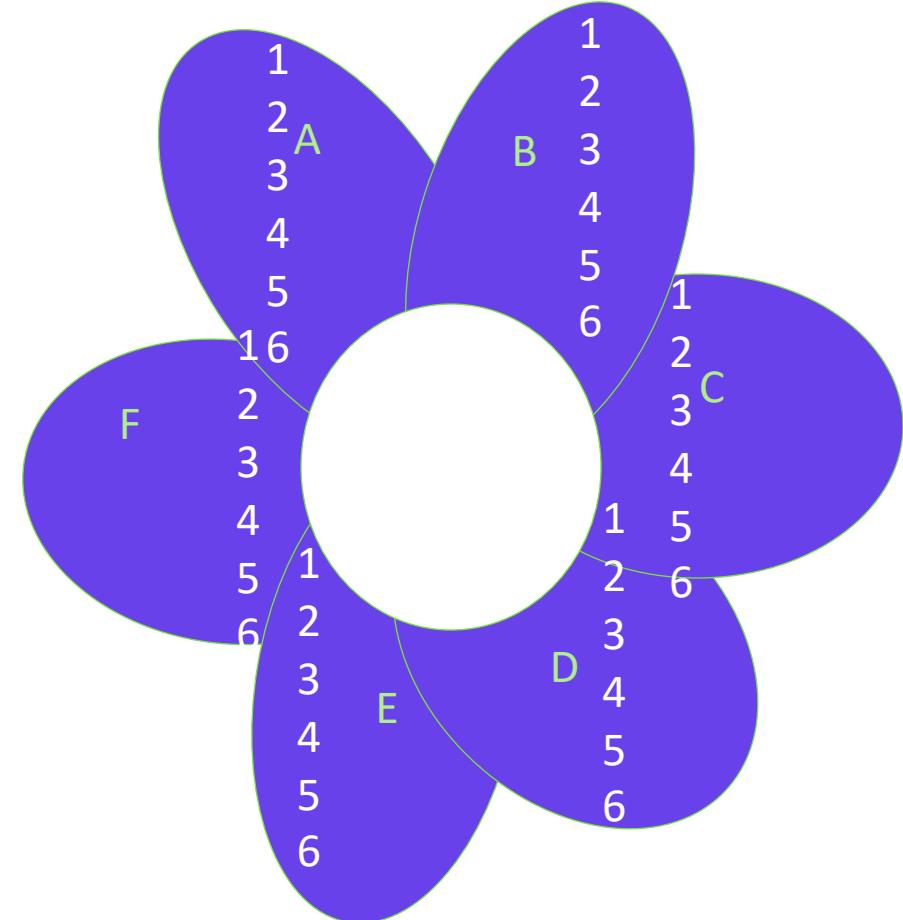

Work in sub-groups

Then pooling

Ask open & precise questions

Tool: Holomorphic daisies

**Creating a shared representation
of mentoring**

Reference frameworks

Creating a shared representation of mentoring

M/M WORKSHOP

Session 2:
BUILDING the
BINOME

Getting to
know each
other

INCLUSION

Recognition
signs

WORKSHOP 2

Identifying
needs

WORKSHOP 1

Dramatic
Triangle/
Educational

THEORY

Feedback

Anyone can talk about
what they have
experienced

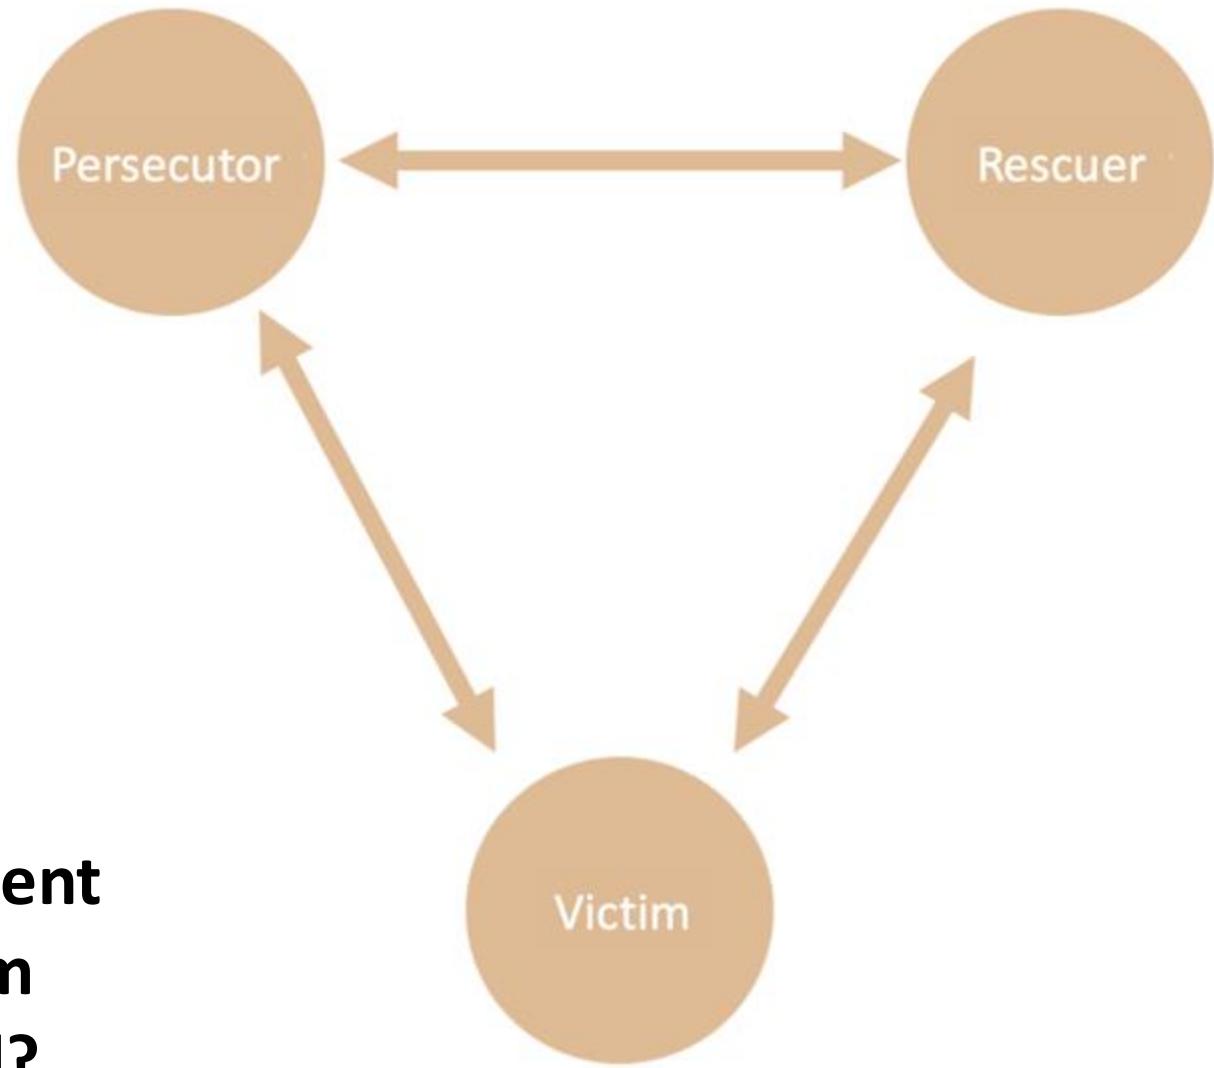

Dramatic & Educational Triangle

Dramatic Triangle

Dynamic relationship or psychological games between several people with 3 roles in the past and not in the here and now.

Behaviour Report it

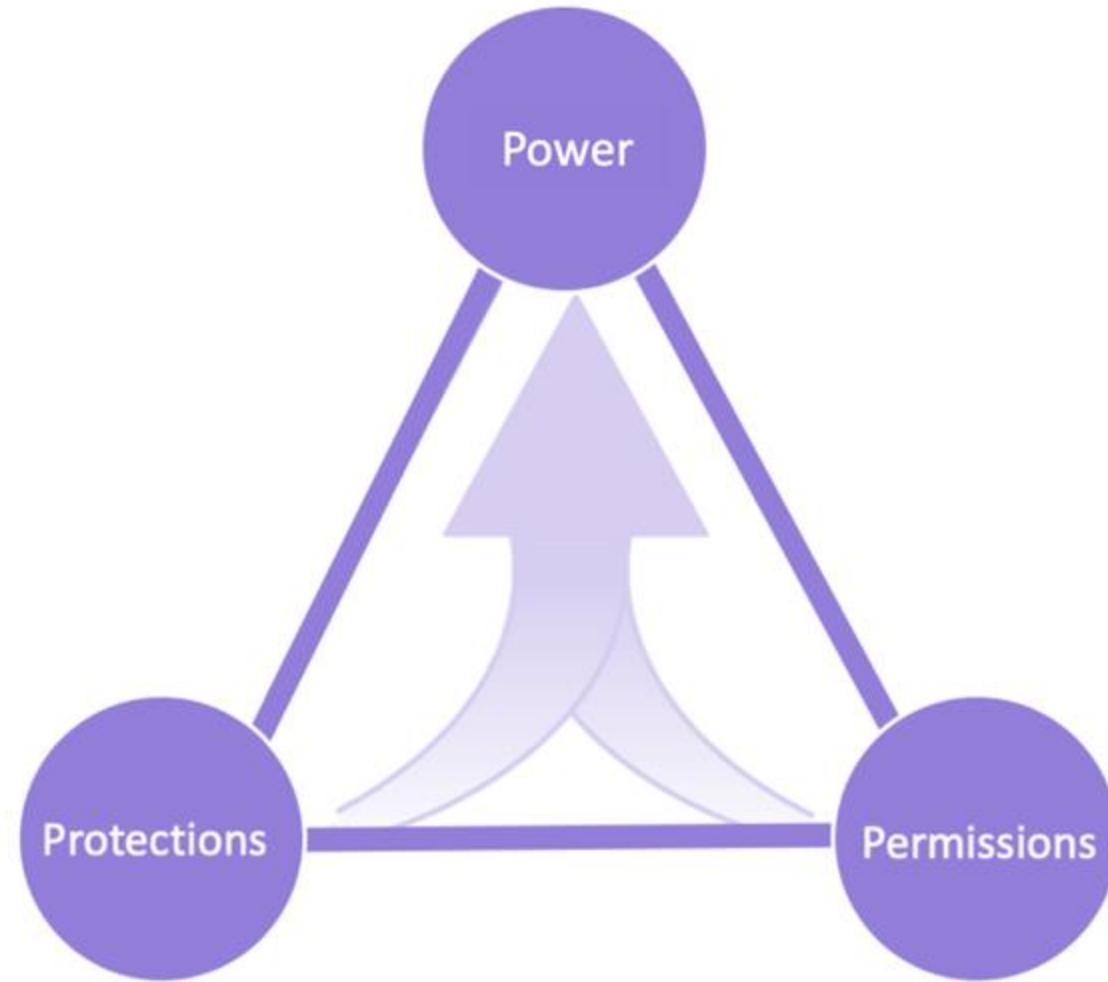

Return to the present
Refine the problem
What do you need?
What do you want to achieve?
What do you expect from me?

Dramatic & Educational Triangle

Educational Triangle

This concept puts the team in the ideal position to not only accept change, but also to enjoy it and implement its Power.

Recognition signs

A VITAL need

Positive signs of recognition encourage greater openness and exchange, strengthen the collaborative relationship and create a climate of trust.

Powerful motivational tools
Development of self-esteem

	Conditional (What one does)	Positive <i>"You anticipated the change in protocol at that particular time."</i> <i>"You were thorough and organized in this meeting."</i>	Negative <i>"You reversed pages 3 and 4 in your business report"</i> <i>To be used for improvement feedback</i>
	Unconditional (What one is)	<i>"I appreciate your good mood".</i> <i>"I appreciate working with you because you are a good listener"</i>	<i>"You are slow"</i> <i>"You are incapable, unreliable"</i> <i>To be banned completely</i>

04

Conclusion

An inclusive workshop

- **Gives meaning**
- **Creates a shared culture**
- **Involves participants**
- **Facilitate communication**
- **Can prevent and manage conflict**
- **Frees people to speak**
- **Strengthens team cohesion**
- **Speeds up decision-making**
- **Encourages creativity**

Workshop outcomes: mentor–mentee vocation, engagement and role
